DOUBLE SPIRAL FREEZER

FREEZING TUNNEL

CBFI® 冰泉制冷

**FOOD QUICK
FREEZING
SOLUTION**

SPIRAL FREEZER

PRODUCT FEATURES

01 LIQUID SUPPLY METHOD

Provide hygienic evaporator, using advanced liquid supply method, heat exchange efficiency is more than 20% higher than traditional forms

02 ANNULAR DUCT DESIGN

Symmetrical, smooth annular air duct design enhances heat transfer effect

03 STAINLESS STEEL MESH BELT

It can be equipped with freezer professional stainless steel mesh belt, plastic mesh belt and other

PRODUCT APPLICATION

FISH & SHRIMP

FRESH MEAT

FRUITS

BAKING

BLAST FREEZER

PRODUCT FEATURES

01 WIDELY USED

Occupies a small amount of cold storage space, a wide range of quick-freezing types, and easy installation

02 AUTOMATED SYSTEM

PLC monitoring system with independent intellectual property rights, centralized management and adjustment

03 COOLING FAN

The cooling fan adopts variable blade pitch, and the frosting interval is long to ensure the continuity of production

PRODUCT APPLICATION

FISH & SHRIMP

POULTRY

FRESH MEAT

FISH

FREEZING TUNNEL

PRODUCT FEATURES

01 FREEZE FAST

The "heat fluctuation" blowing method is adopted, and the freezing speed is fast

02 INSULATION PANELS

The Insulation Panels is made of polyurethane foam, double-sided 304 stainless steel, good heat preservation effect, hygienic and easy to clean

03 COOLING FAN

The cooling fan adopts variable blade pitch, and the frosting interval is long to ensure the continuity of production
